Re: Request for Exception to the
"No-Flare Order", Kenwood Oil
Company, Ehrmann #1 A
Sec. 1-23S-35E, Jalmat Pool
Lea County, New Mexico

Attention: Mr. W. B. Macey
Secretary-Director

Gentlemen:

Herewith is submitted in triplicate, application for excep-
tion to the "No-flare Order" for the above captioned well:

The complete legal description of lease involved
is the NE/4 and SE NW of Section 1-23S-35E in Lea
County, New Mexico.

One well has been completed on this lease, this
being in Unit "A".

Attached is a plat which shows the well and lease
location, offset ownership and gas sales lines in the
area.

Permission is requested to flare the casinghead
gas produced with the oil until such time as a low
pressure gas line connection might be obtained. The
nearest gathering system to this lease is approximately
three and one-half miles to the northeast. Because of
this distance, a sufficient volume of gas has not yet
been developed to justify extending the gathering
system to this lease. The gas-oil ratio for this well
is 1,195 to one. The gas volume to be flared would be
48 MCF per day with an allowable of 41 barrels.

47.8

The United Carbon Company has been contacted in regard to extending their low pressure gas gathering system to this lease. The matter of this extension is now under consideration.

Yours very truly,

KENWOOD OIL COMPANY

By J. H. Moore
