

## NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

## MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or its agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

## THEORY

The first part of the theory is the definition of the function  $f(x)$  and the function  $g(x)$ . The function  $f(x)$  is defined as the function  $f(x)$  and the function  $g(x)$  is defined as the function  $g(x)$ .

The second part of the theory is the definition of the function  $h(x)$  and the function  $k(x)$ . The function  $h(x)$  is defined as the function  $h(x)$  and the function  $k(x)$  is defined as the function  $k(x)$ .

The third part of the theory is the definition of the function  $l(x)$  and the function  $m(x)$ . The function  $l(x)$  is defined as the function  $l(x)$  and the function  $m(x)$  is defined as the function  $m(x)$ .

The fourth part of the theory is the definition of the function  $n(x)$  and the function  $o(x)$ . The function  $n(x)$  is defined as the function  $n(x)$  and the function  $o(x)$  is defined as the function  $o(x)$ .

The fifth part of the theory is the definition of the function  $p(x)$  and the function  $q(x)$ . The function  $p(x)$  is defined as the function  $p(x)$  and the function  $q(x)$  is defined as the function  $q(x)$ .

The sixth part of the theory is the definition of the function  $r(x)$  and the function  $s(x)$ . The function  $r(x)$  is defined as the function  $r(x)$  and the function  $s(x)$  is defined as the function  $s(x)$ .

The seventh part of the theory is the definition of the function  $t(x)$  and the function  $u(x)$ . The function  $t(x)$  is defined as the function  $t(x)$  and the function  $u(x)$  is defined as the function  $u(x)$ .

The eighth part of the theory is the definition of the function  $v(x)$  and the function  $w(x)$ . The function  $v(x)$  is defined as the function  $v(x)$  and the function  $w(x)$  is defined as the function  $w(x)$ .

The ninth part of the theory is the definition of the function  $x(x)$  and the function  $y(x)$ . The function  $x(x)$  is defined as the function  $x(x)$  and the function  $y(x)$  is defined as the function  $y(x)$ .

The tenth part of the theory is the definition of the function  $z(x)$  and the function  $u(x)$ . The function  $z(x)$  is defined as the function  $z(x)$  and the function  $u(x)$  is defined as the function  $u(x)$ .

The eleventh part of the theory is the definition of the function  $v(x)$  and the function  $w(x)$ . The function  $v(x)$  is defined as the function  $v(x)$  and the function  $w(x)$  is defined as the function  $w(x)$ .

The twelfth part of the theory is the definition of the function  $x(x)$  and the function  $y(x)$ . The function  $x(x)$  is defined as the function  $x(x)$  and the function  $y(x)$  is defined as the function  $y(x)$ .

The thirteenth part of the theory is the definition of the function  $z(x)$  and the function  $u(x)$ . The function  $z(x)$  is defined as the function  $z(x)$  and the function  $u(x)$  is defined as the function  $u(x)$ .
