In Re: Flaring casinghead gas
RO 704 Christmas 3,4,5

Gentlemen:

We are herewith making application to flare casinghead gas on our B.A.Christmas Lease, wells #3, #4, and #5. The wells are in the SE/4 of Sec. 28, 22S, 36E.

Permission to flare 87,321 T.O.F. of gas per day is being asked as we are unable to get a gas purchaser to lay a line to this location. Nearest gathering line is six (6.) miles away and belongs to Skelly Oil Company. A letter from them refusing to connect to the lease is not available.

We are attaching a plat showing the well locations, offset ownership and location of tank battery. Also attached is a gas-oil ratio of the individual wells.

Should any further information be required, please call our Jal Office.

The above statements are true and correct to the best of my knowledge.

Yours truly,

Johnnie French
Johnnie French

Gas Flared / Day
#3 = 38
#4 = 13
#5 = 39
