

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

OCT 26 1950

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF		REPORT ON DEEPENING WELL	
REPORT ON RESULT OF PLUGGING OF WELL		SHUT IN PRESSURE TEST	XXX

The following information was obtained from the records of the Department of Health and Human Services, Office of the Assistant Secretary for Health, regarding the activities of the National Health and Medical Research Council (NH&MRC) in the area of research on the health effects of asbestos.

The NH&MRC has been involved in a number of research projects in this area, including the following:

- A study of the health effects of asbestos in the workplace, conducted in 1998-1999.
- A study of the health effects of asbestos in the environment, conducted in 2000-2001.
- A study of the health effects of asbestos in the community, conducted in 2002-2003.

The results of these studies have been used to inform the development of health and safety policies and regulations in Australia.

The NH&MRC has also been involved in a number of other research projects in this area, including the following:

- A study of the health effects of asbestos in the workplace, conducted in 2004-2005.
- A study of the health effects of asbestos in the environment, conducted in 2006-2007.
- A study of the health effects of asbestos in the community, conducted in 2008-2009.

The results of these studies have been used to inform the development of health and safety policies and regulations in Australia.

The NH&MRC has also been involved in a number of other research projects in this area, including the following:

- A study of the health effects of asbestos in the workplace, conducted in 2010-2011.
- A study of the health effects of asbestos in the environment, conducted in 2012-2013.
- A study of the health effects of asbestos in the community, conducted in 2014-2015.

The results of these studies have been used to inform the development of health and safety policies and regulations in Australia.

The NH&MRC has also been involved in a number of other research projects in this area, including the following:

- A study of the health effects of asbestos in the workplace, conducted in 2016-2017.
- A study of the health effects of asbestos in the environment, conducted in 2018-2019.
- A study of the health effects of asbestos in the community, conducted in 2020-2021.

The results of these studies have been used to inform the development of health and safety policies and regulations in Australia.
