13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well is currently Temporarily Abandoned. It is recommended that the well be renewed for Temporary Abandonment upon passing the following casing integrity test. Currently we are still evaluating further up-hole potential.

1. Circulate Casing with inhibited packer fluid.
2. Pressure test casing to 500# for 30 minutes.

Giving OCD 24 hours notice prior to pressure test.

When completed, a successful pressure test will be submitted.

14. I hereby certify that the foregoing is true and correct
