18. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

A follow-up tracer survey after the squeeze job on October 12 indicated that a channel still existed in this injection well. On November 5 a cement retainer was set at 3572 and the casing squeezed from 3644 - 3665 with 247 sacks Class "H" neat cement. The retainer and cement were drilled out and the casing tested okay to 1000#. On November 8 this well was placed back on injection.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
