17. Describe Proposed or Completed Operations (Clearly state all pertinent den work) SEE AULE 1703. Dug well cellar out to expose casing bradenhea	ails, and give pertinent dates, including e	estimated date of starting any proposed
17. Describe Proposed or Completed Operations (Clearly state all pertinent den work) SEE BULE 1703. Dug well cellar out to expose casing bradenhead installed 1" piping from 2" valve on outlet on	ails, and give pertinent dates, including e	estimated date of starting any proposed
17. Describe Proposed or Completed Operations (Clearly state all pertinent den work) SEE AULE 1703. Dug well cellar out to expose casing bradenhea	ails, and give pertinent dates, including e	estimated date of starting any proposed
17. Describe Proposed or Completed Operations (Clearly state all pertinent det work) SEE AULE 1703. Dug well cellar out to expose casing bradenhese Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping.	ails, and give pertinent dates, including each outlet. In bradenhead to a point al	estimated date of starting any proposed
17. Describe Proposed or Completed Operations (Clearly state all pertinent den work) SEE BULE 1703. Dug well cellar out to expose casing bradenhead installed 1" piping from 2" valve on outlet on	ails, and give pertinent dates, including each outlet. In bradenhead to a point al	estimated date of starting any proposed
17. Describe Proposed or Completed Operations (Clearly state all pertinent denters) SEE aut 2 1703. Dug well cellar out to expose casing bradenhead Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no	ails, and give pertinent dates, including each outlet. In bradenhead to a point al	estimated date of starting any proposed boove ground level.
17. Describe Proposed or Completed Operations (Clearly state all pertinent denters) SEE aut 2 1703. Dug well cellar out to expose casing bradenhead Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no	ails, and give pertinent dates, including each outlet. In bradenhead to a point al	estimated date of starting any proposed boove ground level.
17. Describe Proposed or Completed Operations (Clearly state all pertinent derwork) SEE BULE 1703. Dug well cellar out to expose casing bradenhese Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1	stimuted & e of starting any proposed oove ground level. valve, inspected
Dug well cellar out to expose casing bradenhest Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Compared to the conservation Com	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1	stimuted & e of starting any proposed oove ground level. valve, inspected
17. Describe Proposed or Completed Operations (Clearly state all pertinent derwork) SEE BULE 1703. Dug well cellar out to expose casing bradenhese Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1	stimuted & e of starting any proposed oove ground level. valve, inspected
Dug well cellar out to expose casing bradenhest Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Compared to the conservation Com	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1	stimuted & e of starting any proposed oove ground level. valve, inspected
Dug well cellar out to expose casing bradenhest Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Compared to the conservation Com	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1	stimuted & e of starting any proposed oove ground level. valve, inspected
Dug well cellar out to expose casing bradenhest Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Compared to the conservation Com	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1	stimuted & e of starting any proposed oove ground level. valve, inspected
Dug well cellar out to expose casing bradenhest Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Compared to the conservation Com	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1	stimuted & e of starting any proposed oove ground level. valve, inspected
Dug well cellar out to expose casing bradenhest Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Compared to the conservation Com	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1	stimuted & e of starting any proposed oove ground level. valve, inspected
Dug well cellar out to expose casing bradenhest Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Compared to the conservation Com	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1	stimuted & e of starting any proposed oove ground level. valve, inspected
Dug well cellar out to expose casing bradenhest Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Compared to the conservation Com	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1	stimuted & e of starting any proposed oove ground level. valve, inspected
Dug well cellar out to expose casing bradenhest Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Compared to the conservation Com	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1	stimuted & e of starting any proposed oove ground level. valve, inspected
Dug well cellar out to expose casing bradenhest Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Compared to the conservation Com	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1 commission Deputy Oil and O	stimuted & e of starting any proposed oove ground level. valve, inspected
Dug well cellar out to expose casing bradenhead Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Corplattsmier.	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1 commission Deputy Oil and O	stimuted & e of starting any proposed oove ground level. valve, inspected
17. Describe Proposed or Completed Operations (Clearly state all pertinent dentions) SEE BULE 193. Dug well cellar out to expose casing bradenhead Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Corplattsmier.	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1 commission Deputy Oil and O	ove ground level. valve, inspected Gas Inspector, A. A.
17. Describe Proposed or Completed Operations (Clearly state all pertinent dentions) SEE BULE 193. Dug well cellar out to expose casing bradenhead Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Corplattsmier.	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1 commission Deputy Oil and O	stimuted & e of starting any proposed oove ground level. valve, inspected
Dug well cellar out to expose casing bradenhead Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Conservation. 13. Thereby certify that the information above is true and complete to the best of the series.	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of l'ommission Deputy Oil and O	valve, inspected Gas Inspector, A. A.
Dug well cellar out to expose casing bradenhead Installed 1" piping from 2" valve on outlet or Installed 1" valve on upper end of piping. Ran bradenhead pressure. Survey indicated no Piping arrangement, open position of 2" valve and approved by New Mexico Oil Conservation Conservation. 13. Thereby certify that the information above is true and complete to the best of the series.	ails, and give pertinent dates, including each outlet. In bradenhead to a point all leak. and closed position of 1 commission Deputy Oil and O	valve, inspected Gas Inspector, A. A.
