RE: REQUEST A NON-STANDARD 120 ACRE
GAS PRORATION UNIT

Dear Mr. Stogner:

This well was formerly operated by Doyle Hartman. On October 7, 1991, I submitted form C-104 to return this TA'd well back to production and to change Operator name to Meridian. A form C-102 was given to us by Doyle Hartman in the file records which had previously been assigned the SE/4 Sec. 4, 160 acres gas proration unit.

Your Hobbs district office informed me that there is now a well operated by Chevron, the J. F. Janda NCT-J #2, in unit letter P, SE/4 SE4 Sec. 4, 40 acre assigned to it. We now have to request a non-standard proration unit in order to produce this well.

Enclosed is Copy of form C-102 rededicating acreage to a Non-standard 120 acres. A list of the offset operators is attached. Offsets were notified by registered mail on 2/13/92.

Should you require additional information on this request, please contact me at A/C 915-688-6906.

Sincerely,

Maria L. Perez
