Gentlemen:

Subject: Gas Connection - Farney A-5 Well No. 2,
Unit I, Section 5, T-23S, R-36E, Lea County, New Mexico

Phillips Petroleum Company has been contacted to reconnect a gas gathering line to the battery serving this well. They have advised that they will test the well and check the line sometime during the week ending March 6, 1971. You will be notified immediately when Phillips concludes their testing and installs a meter run.

We are still conducting tests on the well and apologize for allowing it to produce without a gas purchaser as set out under provisions of the No-Flare Order.

Yours very truly,
