Re: State A A/c-1 Well #85-F

Sec. 11, T23S, R36E

Recomplete from Langlie Mattix to Jalmat Gas

#### Gentlemen:

Your intention to recomplete the above-referenced well from the Langlie Mattix to the Jalmat Gas has been received. This well is located within the 480-acre proration unit previously approved by R-9073, consisting of the N/2 and SW/4 of Sec. 11. Before this well can be produced from the Jalmat Gas Pool you will need approval of the unorthodox location since it lies too close to the proration unit boundary for this size proration unit.

Please submit an administrative application for approval of this non-standard location.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton Supervisor, District I
