

limits of the Jalnet Gas pool and was designated as a gas well in the Langlie-Mattin Oil pool. This well has been deepened, a 5" OD liner cemented from 2918 to 3672', and finally completed as a Jalnet Gas (Yates) and Langlie Mattin Oil (Queen). The applicant proposes to use this well as the unit well.

- (4) The proposed non-standard gas proration unit will meet the requirements of Rule 5 (b) of the Oil Conservation Commission Order R-520 as follows:
- (a) Contiguous quarter-quarter sections will comprise the unit.
 - (b) The proposed unit lies wholly within a single governmental section.
 - (c) The entire non-standard gas proration unit may reasonably be assumed to be productive of gas.
 - (d) The length or width of the non-standard gas proration unit does not exceed 5280 feet.
 - (e) Western Natural Gas Company is the lessee and operator of the acreage comprising the proposed unit as shown on the enclosed plat, and by copy of this letter of application, all operators owning interests in this section, and all operators within 1500 feet of the proposed unit well are notified by certified mail of the intent of Western Natural Gas Company to form the proposed non-standard gas proration unit.
- (5) The approval of this application for a 160 acre non-standard gas proration unit will, in the opinion of the applicant, prevent waste, protect correlative rights and serve the best interest of conservation.
