Re: Western Natural Gas Company  
King Well No. 1 - Unit L  
Section 12, Township 23 South,  
Range 36 East.

Dear Eric:

Several weeks ago an inquiry was made by the Hobbs Office as to the disposition of the DC application for the subject well. At the time neither the application nor your approval, dated April 22, 1960, could be located. The approval was located, later, in the well file but we do not have the DC application or a record of having received same.

If you will, contact Western Natural Gas Company and ask them to re-submit the application and since they are completing the well with a single string of tubing the information as outlined in Memo 18-59 is requested to be included with DC application.

Very truly yours,

*J. E. Kapteina*  
J. E. KAPTEINA  
Engineer

JEK/ig

*Talked with on Sept 29-60 - discussed what the  
will submit the DC application. Also discussed  
about 4pt, 100 N.S.P., etc -*
