

OIL CONSERVATION COMMISSION
 Santa Fe, New Mexico
MISCELLANEOUS REPORTS ON WELLS

RECEIVED
SEP 15 1949

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING

THEORY OF THE EARTH

CHAPTER I. OF THE ORIGIN OF THE EARTH.

THE first question which presents itself to the mind, when we consider the vastness of the universe, and the immensity of the space which it fills, is, how could so great a quantity of matter have been collected together, and so arranged as to form the various bodies which we see? The answer to this question is, that it was collected together, and so arranged, by the power of attraction. This power is a property of all matter, and it is by its means that all the particles of matter are drawn together, and so form the various bodies which we see. The power of attraction is a property of all matter, and it is by its means that all the particles of matter are drawn together, and so form the various bodies which we see.

The power of attraction is a property of all matter, and it is by its means that all the particles of matter are drawn together, and so form the various bodies which we see. The power of attraction is a property of all matter, and it is by its means that all the particles of matter are drawn together, and so form the various bodies which we see. The power of attraction is a property of all matter, and it is by its means that all the particles of matter are drawn together, and so form the various bodies which we see.
