OIL CONSERVATION COMMISSION,  
SANTA FE, NEW MEXICO.

Gentlemen:

Following is a report on the work done and the results obtained under the heading noted above at the \_\_\_\_\_

Gulf Oil Corporation Alise Paddock Well No. 3 in the \_\_\_\_\_  
Company or Operator Lease

C. SE SE of Sec. 1, T. 22 S, R. 37 E, N. M. P. M.,  
Paddock Field, Lea County.

The dates of this work were as follows: Cemented March 20th; tested March 22, 1946.

Notice of intention to do the work was (~~was~~) submitted on Form C-102 on March 21, 1946 19\_\_\_\_  
and approval of the proposed plan was (~~was~~) obtained. (Cross out incorrect words.)

### DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

The hole was washed down and the casing tested with 1200# pressure applied for 30 minutes. The plug was drilled and the hole tested with 1200# pressure applied for 30 minutes. Both tests were OK, and after approval of Mr. Yarbrough, State Oil and Gas Inspector, preparations were being made to complete the well.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in financial matters. The text suggests that organizations should implement robust systems to track every aspect of their operations, from procurement to sales, to ensure that all data is captured and stored securely.

2. The second part of the document addresses the challenges of data management in a rapidly changing environment. It highlights the need for flexible and scalable solutions that can adapt to new requirements and technologies. The author argues that organizations must invest in training and development to ensure that their staff are equipped with the skills necessary to manage complex data sets effectively. Additionally, the text stresses the importance of regular audits and reviews to identify and address any potential issues or vulnerabilities in the data management process.

3. The third part of the document focuses on the role of technology in enhancing data management capabilities. It explores various tools and platforms that can be used to streamline data collection, storage, and analysis. The author notes that while technology offers significant advantages, it also presents new challenges, such as data security and privacy concerns. Therefore, organizations must carefully evaluate the risks and benefits of adopting new technologies and implement appropriate safeguards to protect their data.

4. The fourth part of the document discusses the importance of collaboration and communication in data management. It argues that data is often siloed within different departments, which can lead to inefficiencies and inconsistencies. To overcome this, the author recommends establishing clear lines of communication and fostering a culture of shared information. Regular meetings and reports should be used to keep all stakeholders informed of the current state of data management and to coordinate efforts to improve the process.

5. The fifth part of the document concludes by summarizing the key points discussed and providing a call to action. It reiterates the importance of maintaining accurate records, investing in data management solutions, and fostering a collaborative environment. The author encourages organizations to take a proactive approach to data management, recognizing it as a critical component of their overall success. Finally, the text offers some practical advice for getting started, such as conducting a thorough assessment of current data management practices and setting clear goals for improvement.
