Re: Proposed Recompletion to Blinebry
Annie Christmas ~~#5-N~~ Sec. 1, T22S, R37E
1-N

Gentlemen:

It is our understanding that you propose to attempt an oil well completion in the Blinebry zone in the above-referenced well. This well lies within a 160-acre Blinebry Gas proration unit consisting of the SW/4 of Sec. 1, T22S, R37E, operated by American Exploration Company and dedicated to their Lynch Christmas Com #4.

If the above-referenced recompletion is successful in the Blinebry oil zone, before the well can be produced you will need to request that American Exploration have their gas proration unit reduced by the deletion of Unit N which will be dedicated to your Blinebry well.

Very truly yours,

OIL CONSERVATION DIVISION
