THEORY OF THE EARTH AND ITS HISTORY

CHAPTER I. OF THE ORIGIN OF THE EARTH.

SECTION I. OF THE ORIGIN OF THE EARTH.

The first question which presents itself to the mind is, what was the origin of the earth? and the answer to this question is, that it was created by the power of God, out of nothing, at the beginning of time.

The second question is, how long did it take God to create the earth? and the answer to this question is, that it took him six days, and that he finished his work on the seventh day, and rested on that day.

The third question is, what was the state of the earth when it was first created? and the answer to this question is, that it was a dark and void space, and that there was no light, and no air, and no water, and no land.

SECTION II. OF THE ORIGIN OF THE EARTH.

The first question which presents itself to the mind is, what was the origin of the earth? and the answer to this question is, that it was created by the power of God, out of nothing, at the beginning of time.

The second question is, how long did it take God to create the earth? and the answer to this question is, that it took him six days, and that he finished his work on the seventh day, and rested on that day.

The third question is, what was the state of the earth when it was first created? and the answer to this question is, that it was a dark and void space, and that there was no light, and no air, and no water, and no land.

The fourth question is, what was the state of the earth when it was first created? and the answer to this question is, that it was a dark and void space, and that there was no light, and no air, and no water, and no land.

The fifth question is, what was the state of the earth when it was first created? and the answer to this question is, that it was a dark and void space, and that there was no light, and no air, and no water, and no land.

The sixth question is, what was the state of the earth when it was first created? and the answer to this question is, that it was a dark and void space, and that there was no light, and no air, and no water, and no land.

The seventh question is, what was the state of the earth when it was first created? and the answer to this question is, that it was a dark and void space, and that there was no light, and no air, and no water, and no land.

The eighth question is, what was the state of the earth when it was first created? and the answer to this question is, that it was a dark and void space, and that there was no light, and no air, and no water, and no land.

The ninth question is, what was the state of the earth when it was first created? and the answer to this question is, that it was a dark and void space, and that there was no light, and no air, and no water, and no land.

The tenth question is, what was the state of the earth when it was first created? and the answer to this question is, that it was a dark and void space, and that there was no light, and no air, and no water, and no land.
