Cities Service Oil Co.  
Box 4005  
Midland, Texas 79701

Gentlemen:

As you know, you have perforated two wells above the vertical limits of the Drinkard Pool. These wells are the Brunson B No. 3 located in Unit M, and the Brunson B No. 7 located in Unit N of Section 3, T-22-S, R-37-E.

In order to make these legitimate Drinkard Pool completions, it will be necessary that you set a packer in the Brunson B No. 3 between the interval 6274 and 6290; and in the Brunson B No. 7, between 6270 and 6290.

When this work has been accomplished, please file Form C-103 for each well showing the setting of the packer.

In the future, I would suggest that before workovers are commenced, you obtain approval, either by filing the appropriate form or by calling and obtaining oral approval from someone in the proper district office.

Yours very truly,

OIL CONSERVATION COMMISSION

Joe D. Ramey  
Supervisor, District 1
