Re: Non standard gas
proration unit,
Tubb Gas Pool,
Lea County, New Mexico.

Gentlemen:

It is respectfully requested that the Oil Conservation Commission authorize administratively a non standard gas proration unit covering the E/2 SW and the NW SW of Section 3, 120 acres, to be dedicated to the Brunson B Well #7 located 622' FSL and 1990' FWL of Section 3, Township 22S, Range 37E, Tubb Gas Pool, Lea County, New Mexico.

The Brunson B Well #3 now has a 160 acre allocation but due to the completion of Brunson B Well #7 as a Tubb Gas well it is requested that 40 acres be assigned to Brunson B Well #3 and the remaining 120 acres of the gas unit be assigned to the Brunson B Well #7.

In support of this request, the following data is submitted:

1. Form C-102 plat showing requested acreage assignment.
2. Agreement between Sinclair Oil and Gas Company (now Atlantic Richfield) and Cities Service to form a gas proration unit to cover the SW/4 Section 3-T22S-R37E, Lea County, New Mexico.

Very truly yours,

CITIES SERVICE OIL COMPANY
