Gentlemen:

Gulf Oil Corporation requests your administrative approval to simultaneously dedicate Tubb Gas production from our Mark #4, located 1980' FNL and 660' FEL of Section 3, T22S, R37E, Lea County, New Mexico with our Mark #5 to the existing 160-acre standard Tubb Gas proration unit, consisting of the NE/4 of Section 3, T22S, R37E, Lea County, New Mexico.

In support of this application, the following facts are submitted:

- 1) This application is in the interest of conservation and prevention of waste.
- 2) Mark #4 is located on the same 160-acre standard Tubb Gas proration unit as Mark #5; however, well #5 is incapable of producing top allowable allocation.
- 3) The recompletion of well #4 in the Tubb Gas Pool represents reasonable development in this pool.
- 4) The attached plat shows the pertinent wells located on the 160-acre standard proration unit, outlined for identification.
- 5) All offset operators will be notified by receipt of a copy of this request.

Your early consideration of this application will be greatly appreciated.

Yours very truly,

  
R. C. Anderson
