Gulf Oil Corporation  
P. O. Box 670  
Hobbs, New Mexico 88240

Gentlemen:

Due to the recently submitted gas-oil ratio test for your Mark Well No. 7 located in Unit H of Section 3, T-22-S, R-37-E, the Blinebry zone will be reclassified as oil effective January 1, 1984, and the gas allowable will be cancelled that date.

Please submit two copies of a revised Form C-102 for this well outlining a 40 acre proration unit, and in the event that a change of transporter(s) occurs due to this reclassification, please submit Form C-104 so indicating.

Since the special rules for the Blinebry Oil & Gas Pool prohibit the simultaneous dedication of acreage to both oil and gas, it will be necessary to reduce the gas proration unit for Well No. 3 located in Unit G. Therefore, please submit a revised Form C-102 outlining the reduced proration unit for Well No. 3. It will also be necessary to submit an application to our Santa Fe office for the non-standard proration unit.

Yours very truly,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District 1
