Attention: Mr. William J. LeMay - Director

Dear Mr. LeMay:

Chevron U.S.A. Inc. respectfully requests administrative approval creation of a non-standard 120 acre gas proration unit, a non-standard gas well location, and simultaneous dedication with the Mark Nos. 7 and 11 wells.

Chevron U.S.A. is planning to recomplete the Mark # 8 well from the Wantz Abo into the Blinebry Oil and Gas Pool. The location of the proposed new proration unit is the E/2 NE/4 and the NW/4 NE/4, Section 3, T22S, R37E. Well No. 8 is located at 554' FNL and 1874' FEL in Section 3, T22S, R37E, Lea County, New Mexico. This makes the well a non-standard location per the Blinebry Gas Pool regulations. Well No. 8 is non-standard to the north only to Chevron U.S.A.

An Administrative application for the Mark No. 11 was submitted on December 8, 1994. This application requested the reclassification of Mark No. 11 from an oil well to a gas well (due to GOR guidelines), an 80 acre non-standard gas proration unit, and a non-standard gas well location and simultaneous dedication of Mark Nos. 7 and 11.
