Gentlemen:

Following is a notice of intention to do certain work as described below at the _____

Mid-Continent Petroleum Corp., Eva Owens Well No. One in NW/4 NW/4
Company or Operator Lease
of Sec. 8, T. 22S, R. 37E, N. M. P. M., Fenrose Skelly Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well was completed July 27, 1947, total depth 3737' and was completed for 102 bbls in 24 hours. It has been producing since that time but has gradually decreased in production until it now makes 3 bbls per day. The well was drilled with rotary tools and the following casing was left in the well: 281' 7" 13" surface pipe, cemented with 300 sacks, 1172' 9" of 9 5/8" cemented with 225 sacks, and 3615' 4" of 7" OD cemented with 400 sacks. We wish to move in rotary rig and deepen this well to the Holt Pay, or approximately 5500'. We expect to cement off the pay section from which we are now producing and if we find the Holt Pay productive we will run a string of 5" OD to the Holt Pay to protect all formations between the 7" and the Holt Pay.

Approved _____, 19____
