## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

We intend to deepen the above well from 3747 ft. to 4000 ft. unless oil and gas is encountered in commercial quantities before reaching 4000 ft. depth, or unless unforeseen difficulties arise and make it impossible to deepen to 4000 ft. This well was acidized at 3747 and failed to increase production. Well is now making 3 barrels of oil in 24 hours with a showing of gas and no water.
