

LC-46  
Due 1-8-54

December 19, 1953

Oil Conservation Commission  
State of New Mexico  
Santa Fe, New Mexico

Re: Application to Dually Complete  
Amerada H. Corrigan #4, Brinkard  
Pool, Lea County, New Mexico

Gentlemen:

By this letter of application Amerada Petroleum Corporation wishes to state the following:

(a) That Amerada Petroleum Corporation H. Corrigan #4 located in the NE/4 of the NE/4 of Section 4, Township 22-S, Range 37-E, was completed December 4, 1946 at a total depth of 6600'. The attached Exhibit A shows the location of this well on the Amerada H. Corrigan lease together with the locations of all offset wells.

(b) That subject well has 5 1/2" casing set at 6600' and cemented with 300 sacks cement. The well is an oil well producing from the perforated intervals of 6518' to 6530' and 6542' to 6566', in the Brinkard Zone, Brinkard Pool.

(c) That the applicant proposes to dually complete the well in the following manner:

(1) Perforate 5 1/2" casing within the approximate intervals of 6100' to 6225' and 6225' to 6300' opposite the Tubbs Zone, Tubbs Gas Pool.

(2) Set production type packer below these perforations at approximately 6310' to separate the two pay zones.

(3) Produce the Brinkard oil through the tubing and the Tubbs gas through the tubing-casing annulus.

(d) That the granting of this application for permission to produce the well as a dual completion with gas from the Tubbs and oil from the Brinkard is in the interest of conservation and the protection of correlative rights.

(e) That the applicant will comply with all rules and regulations of the New Mexico Oil Conservation Commission to maintain separation of production from the two pay zones.

(f) That the manner and method of the proposed dual completion is mechanically feasible and practical.

(g) That by copy of this letter of application all offset operators are notified of the proposed dual completion.

Therefore, Amerada Petroleum Corporation requests that the Oil Conservation Commission grant permission to the applicant to dually complete the subject well as proposed in this application.

Respectfully Submitted,

AMERADA PETROLEUM CORPORATION
