Blinebry Oil & Gas Pool  
Tubb Oil & Gas Pool

Gentlemen:

According to our records the above-referenced well is a dual completion in the Blinebry and Tubb Pools. You have not been filing a packer leakage test for this well. In order to bring this well into compliance, please file a packer leakage test.

Also, the Blinebry zone does not have an allowable because you failed to file the annual GOR test for 1992. Please file this delinquent test on Form C-116 so an allowable can be assigned.

Very truly yours,

OIL CONSERVAITON DIVISION

Jerry Sexton  
Supervisor, District I
