DESCRIPTION

API 30-025-10045 POOL CODE(s) (All)
30-025-10047

Please delete these two wells. These APT's are "backwards" in Ongard & production is not going in. Any prod volumes rptd to these wells should be verified w/ Traco as to which well they belong to. These wells were also "revised" in their records = not known how long. Per Date our discussion today, I will completely re-enter these wells after deletion.

PRIORITY LEVEL

- _____ IMMEDIATE 24 hour response, 2 working day resolution (Production not possible without fix)
_____ URGENT 2 working day response, 5 working day resolution
_____ NEEDED 5 working day response, 8 working day resolution
_____ ASAP Desirable change, to be addressed as time allows
