

DUPLICATE

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

Place

OIL CONSERVATION COMMISSION,
SANTA FE, NEW MEXICO.

Gentlemen:

Following is a report on the work done and the results obtained under the heading noted above at the

Tide Water Associated Oil Co. R. L. Brunson Well No. 1-E in the

Company or Operator Lease
SW/4 of SE/4 of Sec. 4, T. 22-S, R. 37E, N. M. P. M.,
Brunson Field, Lea County.

The dates of this work were as follows: August 24th and 25th, 1946.

Notice of intention to do the work was (was not) submitted on Form C-102 on August 17, 1946.

and approval of the proposed plan was (was not) obtained. (Cross out incorrect words.)

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

Set 5-1/2" OD casing @ 7599', cemented with 250 sax, ran temperature survey and found top of cement at 6590', perforated with 2 - 1/2" holes at 6583', and cemented with 1000 sax.

On August 24th casing was tested with 1725# pump pressure before drilling plug, and on August 25th with 1800# after drilling plug, pressure was allowed to stand for 30 minutes, the test was OK.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in financial matters. The text suggests that organizations should implement robust systems to track income, expenses, and assets, ensuring that all data is up-to-date and easily accessible.

2. The second section focuses on the role of technology in modern record-keeping. It highlights how digital tools and software can streamline the process, reducing the risk of human error and improving efficiency. The author notes that while technology offers many benefits, it is crucial to ensure that the systems used are secure and compliant with relevant regulations. Regular updates and security audits are recommended to protect sensitive information.

3. The third part of the document addresses the challenges of data management and storage. It points out that as the volume of data grows, finding secure and cost-effective storage solutions becomes increasingly difficult. The text advises organizations to evaluate different storage options, such as cloud services or on-premise servers, and to implement strong access controls to prevent unauthorized data retrieval. Additionally, it stresses the importance of having a clear data retention policy to manage the lifecycle of the information.

4. The final section discusses the legal and ethical implications of record-keeping. It notes that organizations must be aware of the laws governing data protection and privacy, as well as the ethical responsibilities of handling personal or confidential information. The text encourages a culture of transparency and integrity, where records are maintained not just for legal compliance but also as a means of building trust with stakeholders.
