Hobbs, New Mexico

Gentlemen:

Recently submitted gas-oil ratio tests for your wells in the Blinebry Oil & Gas Pool necessitate the reclassification of several of the wells.

The State "Q" Well No. 1 located in Unit N of Section 36, T-21-S, R-37-E, will be reclassified as a gas well effective January 1, 1978, and the oil allowable will be cancelled that date. Please advise when you have complied with the provisions of Commission Order No. R-1670-N in order that a gas allowable can be assigned.

The wells listed below will be reclassified as oil wells effective January 1, 1978.

R. L. Brunson	No. 1-P	4-22-37
Percy Hardy	No. 3-N	17-21-37
S. J. Sarkeys	No. 3-C	26-21-37
State "S"	No. 3-B	15-21-37

Order No. R-1670-N, Paragraph (d) of Rule 26 affords the opportunity for the operator of a well being reclassified from gas to oil to request that the District Supervisor reconsider the reclassification if the request is made within 10 days after notification, and if the request is accompanied by evidence to support such request.

Yours very truly,

OIL CONSERVATION COMMISSION

Jerry Sexton
Supervisor, District 1
