

NEW MEXICO OIL CONSERVATION COMMISSION

SANTA FE, NEW MEXICO

MISCELLANEOUS NOTICES

HOBBES OFFICE

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of notice by checking below:

NOTICE OF INTENTION TO TEST CASING SHUT-OFF		NOTICE OF INTENTION TO SHOOT OR CHEMICALLY TREAT WELL	<input checked="" type="checkbox"/>
NOTICE OF INTENTION TO CHANGE PLANS		NOTICE OF INTENTION TO PULL OR OTHERWISE ALTER CASING	
NOTICE OF INTENTION TO REPAIR WELL		NOTICE OF INTENTION TO PLUG WELL	
NOTICE OF INTENTION TO DEEPEN WELL	<input checked="" type="checkbox"/>		

Hebbs, New Mexico

Place

March 24, 1948

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the Radford - Zachry
Oil Company, Inc. Grissell Well No. 1 SW 1/4 of NE 1/4
Company or Operator Lease
of Sec. 5, T. 22, R. 37, N. M. P. M., Penrose-Skelly Field.
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

To clean out to total depth, deepen approximately 21 feet, sheet
with 200 quarts of nitroglycerine from 3658 to 3758, clean out,
and acid treat from 3658 to 3758 with 500 gallons.

Approved 1948, 19
except as follows:

Radford-Zachry Oil Company, Inc.
Company or Operator

OIL CONSERVATION COMMISSION,

By W. H. WinklerTitle Oil & Gas Inspector

1. The first part of the paper discusses the importance of understanding the underlying mechanisms of the observed phenomena. This is crucial for developing effective interventions and policies. The authors argue that a comprehensive understanding of the system is necessary to address the complex challenges it presents.

2. The second part of the paper focuses on the methodology used in the study. The authors describe the data collection process, the statistical models employed, and the validation techniques used to ensure the reliability of the results. They emphasize the importance of transparency and reproducibility in scientific research.

3. The third part of the paper presents the results of the study. The authors show that the proposed model accurately predicts the observed outcomes, providing strong evidence for its validity. They also discuss the implications of these findings for future research and practical applications.

4. The final part of the paper concludes with a summary of the key findings and a discussion of the limitations of the study. The authors suggest several directions for future research, including the need for larger-scale studies and the exploration of additional factors that may influence the system.

5. The authors also discuss the potential for future research in this area. They suggest that further exploration of the underlying mechanisms and the development of more sophisticated models could lead to a better understanding of the system and more effective interventions. They also highlight the importance of interdisciplinary collaboration in addressing these complex challenges.

6. In conclusion, the paper provides a comprehensive overview of the study, from the motivation and methodology to the results and future directions. The authors believe that their findings have significant implications for the field and hope that they will contribute to a better understanding of the system and the development of more effective solutions.

7. The authors also discuss the potential for future research in this area. They suggest that further exploration of the underlying mechanisms and the development of more sophisticated models could lead to a better understanding of the system and more effective interventions. They also highlight the importance of interdisciplinary collaboration in addressing these complex challenges.

8. In conclusion, the paper provides a comprehensive overview of the study, from the motivation and methodology to the results and future directions. The authors believe that their findings have significant implications for the field and hope that they will contribute to a better understanding of the system and the development of more effective solutions.
