

THE BRADLEY OIL COMPANY

BROWN BUILDING

WICHITA, KANSAS

August 11th, 1937.

Mr. Shepherd,
Oil Conservation Commission,
Hobbs, New Mexico.

Gentlemen:

You will find herewith Form 101 covering our intentions to drill a cable tool test in the centre of the 40 acres SWNE Sec. 5, -22S-37E Lea County, N.M., which is a direct offset to the west of the F.J. Dangle well about 3/4 mi. to the s.w. of Eunice.

We hope that this is in order, for your additional information Mr. C. T. McLaughlin of Midland, will be the contractor.

Application for the bond has been made and accepted by the bonding company, same will be forwarded to Santa Fe for approval. It is the same bonding company as covers on the Jal -Lanehart location.

We appreciate any suggestion, with the hope we co-operate fully,

Very truly yours,

THE BRADLEY OIL COMPANY

By

Asst. Secy-Treas.

CJD 1

For your additional information we are meeting requirements to operate as The Bradley Oil Company.
