

## NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

## MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

# THE HISTORY OF THE UNITED STATES

OF THE UNITED STATES OF AMERICA

The history of the United States is a story of a young nation that grew from a small group of colonies on the eastern coast of North America into a powerful, independent country. The story begins with the first European settlers in the early 17th century, who came seeking religious freedom and economic opportunity.

The early years of the colonies were marked by struggle and hardship.

The colonists fought for their rights against the British government, leading to the American Revolution.

The war ended in 1781 with the British surrender at Yorktown, and the United States was born.

The new nation faced many challenges, including the need to establish a strong government.

The Constitution was drafted in 1787, creating a framework for the federal government and the rights of the states.

The early years of the Republic were a time of growth and development, as the United States expanded its territory and influence.

The nation faced internal conflicts, such as the War of 1812, which tested its unity and strength.

The mid-19th century was a period of rapid change, with the discovery of gold in California and the opening of the transcontinental railroads.

The Civil War, fought from 1861 to 1865, was a defining moment in the nation's history.

The war ended slavery and preserved the Union, but it also left deep scars on the nation.

The Reconstruction era followed, as the nation sought to rebuild and reunite itself.

The late 19th and early 20th centuries saw the United States emerge as a world power.

The nation's involvement in World War I and World War II further solidified its global influence.

The mid-20th century was a time of social and political change, with the Civil Rights Movement and the Vietnam War.

The late 20th and early 21st centuries have seen the United States continue to evolve and shape the world.
