Figure 1 is a line graph illustrating the percentage of the total sample for each age group across different years. The y-axis represents the percentage of the total sample, ranging from 0 to 100. The x-axis represents the years, with labels for 1970, 1980, 1990, 2000, 2010, and 2020. The age groups are represented by different line styles: 0-14 (solid line), 15-24 (dashed line), 25-34 (dotted line), 35-44 (dash-dot line), 45-54 (long dashed line), 55-64 (short dashed line), 65-74 (solid line with circles), and 75+ (solid line with triangles). The graph shows a clear trend of aging, with the 0-14 group decreasing from approximately 15% in 1970 to about 5% in 2020, and the 65-74 group increasing from approximately 10% in 1970 to about 25% in 2020.
