Gentlemen:

Following is a notice of intention to do certain work as described below at the.....

Stanolind Oil and Gas Company J.W. Grizzell Well No. **2** in **NE/4 SW/4**
Company or Operator Lease

of Sec. **5**, T. **-22-S**, R. **-37-E**, N. M. P. M., **Penrose Skelly** Field.

Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well was completed 6/22/37 at a total depth of 3760' by Landreth Production Company and was potentialed at 216 BOPD after shooting with 260 quarts of nitro glycerin.

Since that time production has declined to approximately 1 BOPD and the well has not responded to acid treatment.

We propose to temporarily abandon this well by pulling tubing and pump and equipping the surface head of the 7" casing with a swage nipple and gate valve. The valve will be closed and bull plugged to protect the hole until further work or permanent abandonment is undertaken.
