# THEORY OF THE EARTH AND ITS HISTORY

BY J. H. MACLEOD

WITH ILLUSTRATIONS BY J. H. MACLEOD

This book is a treatise on the theory of the earth and its history, and is intended for the use of students of geology. It is written in a clear and concise manner, and is well illustrated with diagrams and figures. The author is a distinguished geologist, and his knowledge of the subject is reflected in the book. The book is divided into two parts, the first dealing with the general theory of the earth, and the second dealing with the history of the earth. The first part is divided into three chapters, the first dealing with the origin of the earth, the second dealing with the development of the earth, and the third dealing with the present state of the earth. The second part is divided into four chapters, the first dealing with the history of the earth from the beginning of time to the present, the second dealing with the history of the earth from the beginning of time to the present, the third dealing with the history of the earth from the beginning of time to the present, and the fourth dealing with the history of the earth from the beginning of time to the present.
