

REQUEST FOR (OIL) - (GAS) ALLOWABLE

This form shall be submitted by the operator before an initial allowable will be assigned to any completed Oil or Gas well. Form C-104 is to be submitted in QUADRUPLICATE to the same District Office to which Form C-101 was sent. The allowable will be assigned effective 7:00 A.M. on date of completion or recompletion, provided this form is filed during calendar month of completion or recompletion. The completion date shall be that date in the case of an oil well when new oil is delivered into the stock tanks. Gas must be reported on 15.025 psia at 60° Fahrenheit.

Title:

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in financial matters. The text suggests that organizations should implement robust systems to track every aspect of their operations, from procurement to sales, to ensure that all data is captured and stored securely.

2. The second part of the document addresses the challenges of data management in a rapidly changing environment. It highlights the need for flexible and scalable solutions that can adapt to new technologies and evolving business requirements. The author argues that organizations must invest in training and development to ensure that their staff are equipped with the skills necessary to manage complex data sets effectively. Additionally, the text stresses the importance of regular audits and reviews to identify potential weaknesses and areas for improvement.

3. The third part of the document focuses on the role of technology in enhancing operational efficiency. It explores various digital tools and platforms that can streamline processes, reduce errors, and improve communication. The author notes that while technology offers significant benefits, it also presents challenges, such as data security and integration with existing systems. Therefore, organizations must carefully evaluate their options and implement a balanced approach that maximizes the advantages of technology while mitigating its risks.

4. The fourth part of the document discusses the importance of collaboration and teamwork in achieving organizational goals. It argues that no single department or individual can succeed in isolation; instead, success is achieved through the collective effort of all team members. The text provides several strategies for fostering a collaborative culture, including encouraging open communication, providing cross-training opportunities, and recognizing and rewarding team achievements. The author concludes that a strong sense of teamwork is a critical factor in the long-term success of any organization.

5. The fifth and final part of the document offers concluding thoughts and recommendations. It reiterates the key points discussed throughout the paper, emphasizing the need for continuous improvement and adaptation. The author encourages organizations to stay informed about the latest trends and best practices in their field and to be proactive in addressing any challenges that may arise. Finally, the text expresses optimism about the future of the organization, provided that it remains committed to its core values and principles.
