17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well has an Exner Dodge Formation Packer in open hole @ 3700'. An attempt to pull this packer was unsuccessful. The well will not pump commercial quantities of oil from underneath this packer. It is believed that remaining reserves do not justify the workover which would be required to restore this well to production.

The well is currently temporarily abandoned. We plan to request bids to plug and abandon this well within the next few weeks.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
