17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Sohio Petroleum Company respectfully requests a one year extension to the exception to Rule 201-B, which would allow the subject well to remain temporarily abandoned for this additional period of time. According to our records, the present exception expires December 1, 1975.

The subject well is not in an area of active unitization proceedings; however, it is felt that the wellbore does contain potential secondary reserves. Stabilization of the oil price and knowledge gained in the more attractive flood areas will provide better evaluation of this type prospect. Permanent abandonment of the wellbore at this time would further erode the economics of these less attractive, marginal type secondary prospects.

E. J. Jones 12/1/76
