Gentlemen:

A recent test indicated that a communication problem exists in your No. 4 Falby well, located in the SW $\frac{1}{4}$  sec. 8, T. 22 S., R. 37 E., on Federal lease Las Cruces 033706 (b). Also, a letter of June 12, 1980 from Gulf Oil Exploration and Production Company to Texaco, Inc. advises that responsibility for the well (also known as the South Penrose Skelly Unit No. 179) to be transferred to Texaco.

Please submit your proposed workover procedure to this office for approval. The work should be completed no later than August 1, 1980.

Sincerely yours,

(Orig. Sgd.) J. W. LONG
