

# HUMBLE OIL & REFINING COMPANY

MIDLAND, TEXAS

Midland, Texas  
December 23, 1958

Application for Approval  
Non-Standard Gas Proration Unit  
Humble Oil & Refining Company  
J. L. Greenwood Well No. 5  
Lea County, New Mexico

New Mexico Oil Conservation Commission  
P. O. Box 871  
Santa Fe, New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

Humble Oil & Refining Company respectfully requests Administrative approval of a non-standard gas proration unit of 320 acres in the Eumont Gas Pool, being the S/2 of Section 9, Township 22 South, Range 37 East, Lea County, New Mexico. This unit is to be assigned to Humble's J. L. Greenwood Well No. 5, located 1980 feet from the South line and 660 feet from the East line of Section 9. A non-standard unit of 120 acres, being the N/2 of the S/2, is presently assigned to this well. In support of this request, we submit the following information:

1. J. L. Greenwood Well No. 5 was approved for a 160 acre non-standard gas proration unit by Administrative Order NSP-432 of June 5, 1958.
2. The proposed non-standard gas proration unit consists of contiguous quarter-quarter sections.
3. The non-standard gas proration unit lies wholly within a single governmental section.
4. The entire proposed non-standard gas proration unit may reasonably be presumed to be productive of gas.
5. The length or width of the non-standard gas proration unit does not exceed 5,280 feet.
6. All operators owning interests in this section and offset operators have been furnished copies of this application by Certified Mail.

1. The first part of the report is a general introduction to the project, which includes a description of the objectives and the scope of the study. It also provides a brief overview of the methodology used in the research.

2. The second part of the report is a detailed description of the data collection process. This section includes information about the sources of the data, the methods used to collect it, and the steps taken to ensure its accuracy and reliability. It also discusses any challenges encountered during the data collection process.

3. The third part of the report is a description of the data analysis process. This section includes information about the statistical methods used to analyze the data, the results of the analysis, and the conclusions drawn from the findings.

4. The fourth part of the report is a discussion of the results of the study. This section includes a summary of the findings, a comparison of the results with previous research, and a discussion of the implications of the findings for future research.

5. The fifth part of the report is a conclusion. This section includes a summary of the main findings of the study and a statement of the author's conclusions.

6. The sixth part of the report is a list of references. This section includes a list of all the sources of information used in the study, including books, articles, and other documents.

7. The seventh part of the report is an appendix. This section includes any additional information that is relevant to the study, such as raw data, tables, and figures.

8. The eighth part of the report is a bibliography. This section includes a list of all the sources of information used in the study, including books, articles, and other documents.
