Administrative Order NSL-3220(SD)

Dear Mr. Bruce:

Reference is made to your application dated January 8, 1993 for an unorthodox Blinebry gas well location in an existing standard 160-acre gas spacing and proration unit (GPU) for said Blinebry Oil and Gas Pool comprising the SE/4 of Section 9, Township 22 South, Range 37 East, NMPM, Lea County, New Mexico. Said GPU presently has dedicated thereon the J.L. Greenwood Well No. 11 located at a standard gas well location 1880 feet from the South line and 760 feet from the East line (Unit I) of said Section 9.

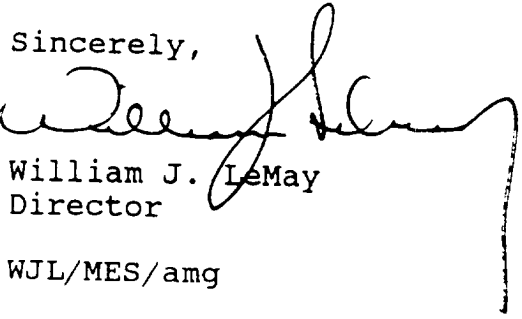

It is our understanding that the subject well in this matter was completed and is producing from deeper oil-producing horizons and was recently recompleted up-hole in the Blinebry interval as a gas well.

By authority granted me under the provisions of General Rule 2(c) of the Special Rules and Regulations for the Blinebry Oil and Gas Pool, as promulgated by Division Order No. R-8170, as amended, the following described unorthodox gas well location is hereby approved.

**J.L. Greenwood Well No. 9
1980' FSL - 2080' FEL (Unit J)**

Also, you are hereby authorized to simultaneously dedicate Blinebry Gas production from the J.L. Greenwood Well No. 9 with the J.L. Greenwood Well No. 11. Furthermore, you are hereby permitted to produce the allowable assigned the subject GPU from both of said wells in any proportion.

Sincerely,

William J. LeMay
Director
