DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, coment-ing points, and all other important proposed work)

We cemented 32# 8-5/8" casing at 2749' with 800 sacks 2% aquagel cement and 400 sacks regular cement. Plug was pumped down at 12:00 midnight, September 16, 1946. 4

We tested casing and drilled cement at 4:00 A.M. September 19, 1946. Casing tested OK under pressure. RECEIVED

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
