12. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Apache proposes to downhole commingle production from the Blinebry Oil & Gas (Pro Gas) and Drinkard pools under permit DHC-522.

To support this proposal we submit the following:

- 1.) Downhole Commingle Permit: DHC-522 - 09/25/84 & NSL-3964 (SD) / DI DHC Order No. 0025
Approved 12/27/00

- 2.) Blinebry Perforations: **5422' - 5803'** Pool # 72480
Drinkard Perforations: **6220' - 6473'** Pool # 19190

- 3.) Allocation formula is based on current Blinebry and prior Drinkard production:
Blinebry Allocation: 205 MCFD 72% Gas
Drinkard Allocation: 80 MCFD 28% Gas

Following Downhole Commingling well is producing oil & water

Request amended allocation formula for Drinkard of 100% Oil & Water

- 4.) Commingling of the production from each pool will not reduce the value of the total remaining production

- 5.) Ownership among both pools is common

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
