Attn: Mr. William J. LeMay  
Director

Gentlemen:

Chevron U.S.A. Inc. respectfully requests administrative approval for an unorthodox gas well location on the Rollon Brunson Well No. 6 and simultaneous dedication with the Rollon Brunson Well No 4.

Well No. 4 is dedicated to an existing non-standard gas proration unit, approved by Administrative Order NSP-995 dated May 9, 1975. The current unit is 80 acres, which consists of the W/2 NE/4 Section 10, T22S, R37E. Well # 4 is located 2086' FNL and 1874' FEL (Unit G) of Section 10, T22S, R37E and Well No. 6 is located 536' FNL and 2104' FEL (Unit B) of Section 10, T22S, R37E.

Well No. 6 was originally completed as a Drinkard producer in 1949. This well was subsequently completed in the San Andres in 1972 and then completed as a Tubb-Drinkard dual in 1977. The closest Blinbry Well is J. H. Hendrix's Brunson No. 5, located in Section 3, T22S, R37E, approximately 1090' north.

March 9, 1994

Attached is a plat outlining the proration unit with the location of wells 4 and 6, and a map showing the offset properties and wells.

Chevron U.S.A. Inc. has mailed, by certified mail, a copy of this application to the offset Operators.

In view of the facts submitted, Chevron U.S.A. Inc. requests that administrative approval of this request be granted. If additional information is required, please contact me at (915) 687-7152.

Sincerely,

Lloyd V. Trautman  
Sr. Petroleum Engineer

(Offset Operator Address)

Gentlemen:

Attached is a copy of Chevron's administrative application for an unorthodox gas well location for the Rollon Brunson well # 6 and simultaneous dedication with the Rollon Brunson well # 4.

Chevron has proposed a recompletion into the Blnebry Oil and Gas Pool as a gas producer. It is our intention to simultaneously dedicate the production from the Rollon Brunson #4 and # 6 wells to the existing 80 acre proration unit.

If additional information is required, please contact me at (915) 687-7152.

Sincerely,

Lloyd V. Trautman  
Sr. Petroleum Engineer
