Re: Baker "B" #7-J  
Sec. 10, T22S, R37E

Gentlemen:

Texaco obtained an order to downhole commingle the above-referenced well in the Tubb and Drinkard zones (DHC-813). This order will exempt you from further packer leakage tests on this well. However, you will need to file a production test setting out the allocation formula for each zone since that matter was left to District Supervisor.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
