APPLICATION FOR 40-ACRE
NON-STANDARD GAS PRORATION UNIT

William J. LeMay
Director - OCD
P.O. Box 2088
Santa Fe, New Mexico 87501

Gentlemen:

Chevron U.S.A. Inc. respectfully requests administrative approval for a 40-acre Non-Standard Gas Proration Unit in the Blinebry Oil and Gas Pool, comprising the NE/4 NE/4 of Section 10, T-22-S, R-37-E, Lea County, New Mexico to be assigned to Chevron's Eaves Well No. 6. In support thereof, Chevron U.S.A. Inc. states the following facts:

1. That Administrative Orders NSP-995 and NSP-996 granted authority for two 80-acre Non-Standard Gas Proration Units for Chevron's Rollin Brunson Well No. 4 and Eaves Well No. 6, respectively, both effective May 9, 1975. The 80-acre NSP Unit for the Rollin Brunson Well No. 4 comprised the W/2 NE/4 of Section 10, T-22-S, R-37-E while the 80-acre NSP Unit for the Eaves Well No. 6 comprised the E/2 NE/4 of Section 10, T-22-S, R-37-E.
2. That Chevron's Eaves Well No. 5, located in Unit H, of Section 10, T-22-S, R-37-E, has recently been recompleted as a Blinebry oil well (8-23-87), dedicated to 40-acres comprising the SE/4 NE/4 of Section 10. This reduces the 80-acre NSP Unit for Eaves Well No. 6 to 40-acres.
3. That the proposed Non-Standard Gas Proration Unit will meet the requirements of Rule 104(D) (II) as follows:
 - a. The proposed non-standard unit consists of 40-acres that are contiguous.
 - b. The proposed non-standard unit lies wholly within a single governmental quarter section in the Blinebry Oil and Gas Pool.
