

## NEW MEXICO OIL CONSERVATION COMMISSION

SANTA FE, NEW MEXICO

**MISCELLANEOUS NOTICES**

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of notice by checking below:

NOTICE OF INTENTION TO TEST CASING SHUT-OFF	<b>XX</b>	NOTICE OF INTENTION TO SHOOT OR CHEMICALLY TREAT WELL
NOTICE OF INTENTION TO CHANGE PLANS		NOTICE OF INTENTION TO PULL OR OTHERWISE ALTER CASING
NOTICE OF INTENTION TO REPAIR WELL		NOTICE OF INTENTION TO PLUG WELL
NOTICE OF INTENTION TO DEEPEN WELL		

Hobbs, New MexicoApril 12, 1948

Place

Date

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Skelly Oil Company Baker B Well No. 11 in SW/4 SE/4  
Company or Operator Lease  
of Sec. 10, T. 22 S, R. 37 E, N. M. P. M., Drinkard Field.  
Lea County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Drilled to T.D. 2809' and ran and cemented string of 9-5/8" OD casing at 2809' with 1000 sacks of cement. Halliburton Process used. Will let set 60 hours and on April 13, 1948 at approximately 7:30 A.M. will drill plug and test casing shut-off.

Approved APR 1 1948, 19\_\_\_\_

NOTES

1. The first part of the paper is devoted to the study of the

properties of the function  $f(x)$  defined by the equation  $f(x) = \int_0^x f(t) dt$ . It is shown that  $f(x)$  is a constant function if and only if  $f(0) = 0$ .

2. In the second part of the paper, we consider the problem of the existence of solutions of the differential equation  $y' = f(x, y)$  for a given function  $f(x, y)$ .

3. The third part of the paper is devoted to the study of the properties of the function  $f(x)$  defined by the equation  $f(x) = \int_0^x f(t) dt$ .

4. In the fourth part of the paper, we consider the problem of the existence of solutions of the differential equation  $y' = f(x, y)$  for a given function  $f(x, y)$ .

5. The fifth part of the paper is devoted to the study of the properties of the function  $f(x)$  defined by the equation  $f(x) = \int_0^x f(t) dt$ .

6. In the sixth part of the paper, we consider the problem of the existence of solutions of the differential equation  $y' = f(x, y)$  for a given function  $f(x, y)$ .

7. The seventh part of the paper is devoted to the study of the properties of the function  $f(x)$  defined by the equation  $f(x) = \int_0^x f(t) dt$ .

8. In the eighth part of the paper, we consider the problem of the existence of solutions of the differential equation  $y' = f(x, y)$  for a given function  $f(x, y)$ .

9. The ninth part of the paper is devoted to the study of the properties of the function  $f(x)$  defined by the equation  $f(x) = \int_0^x f(t) dt$ .

10. In the tenth part of the paper, we consider the problem of the existence of solutions of the differential equation  $y' = f(x, y)$  for a given function  $f(x, y)$ .

11. The eleventh part of the paper is devoted to the study of the properties of the function  $f(x)$  defined by the equation  $f(x) = \int_0^x f(t) dt$ .

12. In the twelfth part of the paper, we consider the problem of the existence of solutions of the differential equation  $y' = f(x, y)$  for a given function  $f(x, y)$ .

13. The thirteenth part of the paper is devoted to the study of the properties of the function  $f(x)$  defined by the equation  $f(x) = \int_0^x f(t) dt$ .

14. In the fourteenth part of the paper, we consider the problem of the existence of solutions of the differential equation  $y' = f(x, y)$  for a given function  $f(x, y)$ .
