Gentlemen:

On December 13, 1973, this office advised you by letter that your Hinton No. 4 located in Unit I of Section 12, T-22-S, R-37-E, was being reclassified as a gas well in the Blinebry Gas Pool, and requested that you advise us when you had complied with the provisions of Commission Order No. R-1670 pertaining to the Blinebry Gas Pool so that a gas allowable could be assigned. Since we have heard nothing from you regarding this well, no gas allowable has been assigned, although we note that production is being reported on Commission Form C-115.

You are directed to shut this well in until the necessary paper work has been filed, which will include Form C-102 outlining the acreage to be dedicated to the well as a gas well, and notification from the transporter that the gas is being separately metered. Since apparently only 40 acres can be dedicated to the well, it will also be necessary for you to apply for an NSP Order for the non-standard unit.

Yours very truly,

OIL CONSERVATION COMMISSION

Enclosure

On December 19, 1973, this office advised you by letter that your Hinton
No. 1 located in Unit 1 of Section 12, T-22-S, R-37-E, was being reclassi-
fied as a gas well in the Hinkley Gas Pool, and requested that you ad-
vise us when you had complied with the provisions of Commission Order No.
1-107) pertaining to the Hinkley Gas Pool so that a gas allowance could
be assigned. Since we have heard nothing from you regarding this well,
no gas allowance has been assigned, although we note that production is
being reported on Commission Form C-112.

You are directed to shut this well in until the necessary paper work has
been filed, which will include Form C-102 outlining the acreage to be
dedicated to the well as a gas well, and notification from the trans-
porter that the gas is being separately metered. Since apparently only
A) acres can be dedicated to the well, it will also be necessary for
you to apply for an MSP Order for the non-standard unit.

Yours very truly,

OIL CONSERVATION COMMISSION
