Re: Alexander Rodgers #2-A
Sec. 12, T22S, R37E
Tubb Oil and Gas Pool

Gentlemen:

Due to the recently submitted gas/oil ratio test for the above-referenced well, the well will be reclassified from an oil well to a gas well in the Tubb Oil and Gas Pool effective January 1, 1989, and the oil allowable cancelled that date.

If for some reason you feel this test does not reflect the proper classification of the well, please submit another test for our consideration by November 16, 1988.

If the well is to be reclassified from oil to gas, please submit the following by November 16, 1988.

- 1) C-102, acreage dedication plat for gas well proration unit
- 2) C-104 if gas transporter changes due to reclassification
- 3) Verify that gas well gas is separately metered.

Very truly yours,

OIL CONSERVATION DIVISION

P.S. If well is reclassified to gas you will probably want to change lease name back to Rodgers Gas Com #1.
