RE: Applications for the formation of a non-standard 80-acre gas spacing and proration unit ("GPU") comprising the N/2 SE/4 of Section 13, Township 22 South, Range 37 East, NMPM, Blinebry Oil and Gas Pool, Lea County, New Mexico.

Dear Mr. Gaddis:

In reviewing my file of "pending matters", I found the subject applications dated January 9 and 12, 1996, a letter from me dated January 17, 1996, and a reference to a telephone conversation on January 19, 1996. My records indicate that the two wells on the proposed 80-acre GPU [the Edith Butler "B" Well Nos. 1 (API No. 30-025-10252) and 2 (API No. 30-025-25074)] are currently classified as "oil wells" within the Blinebry Oil and Gas Pool. Since this application is unnecessary I see no reason to hold it any longer, I am therefore returning it to you at this time.

Sincerely,

Michael E. Stogner

Attn: Mr. William J. Lemay

Gentlemen:

Marathon Oil Company respectfully requests an amendment to the application to simultaneously dedicate Blinebry Oil & Gas Pool production submitted on January 9, 1996. Two errors were made concerning the data presented. First, the second well to share the proration unit was incorrectly shown as the Edith Butler B Well No.28 and should have read Edith Butler B Well No. 2. The C-102 correctly indicated the wells. The second error consisted of overlooking the existing NSP 1055 that created a 40 acre Blinebry proration unit for the Edith Butler B Well No. 2. It is proposed that a non-standard proration unit consisting of 80 acres be created for both the No. 1 & 2. Attached are the well location and acreage dedication plats showing the locations and footages of the mentioned wells.

I apologize for any inconvenience that the mentioned errors may have created. If you have any questions or have need of additional data, please contact myself at (505) 393-7106, ext 201.

Sincerely,
