SUBJECT: Application for authority to dually complete
The Ohio Oil Company's Edith Butler "B" Well No. 1
in the Blinbry Gas Pool.

Mr. W. B. Macey
New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

O

Dear Mr. Macey:

The Ohio Oil Company respectfully requests that the Oil Conservation Commission grant this application of The Ohio for authorization to dually complete its Edith Butler "B" Well No. 1 located in the NE/4 SE/4 of Section 13, Township 22 South, Range 37 East, Lea County, New Mexico, now producing in the Drinkard Pool.

P

The Ohio desires to dually complete this well in the Blinbry Pool in such a manner as to produce gas through the annulus between the casing and the tubing, and to continue producing oil from the Drinkard Pool through the tubing. The Ohio intends to install an efficient packer between the two zones and to perform the completion so as to prevent waste in each reservoir. A schematic diagram showing the proposed method for dual completion is attached. A plat is also attached hereto, which indicates the location of the lease and the well and the location of surrounding tracts. A copy of this application, with diagram and plat attached, has been sent by registered mail to each of the operators named on the attached list.

Y

It is contemplated that the N/2 SE/4 of Section 13 on which the above identified well is completed will be pooled with the S/2 SE/4 of Section 13 in so far as the Blinbry Pool is concerned, and R. Olsen Oil Company, the operator of the S/2 SE/4 of Section 13, has confirmed that it has no objection to the proposed dual completion of The Ohio's well.

Subsequent to the completion of the work, The Ohio will present to the Commission data showing the detailed completion program as well as plans for future testing which will be made regularly to determine that waste is not occurring in either reservoir.

Each and all of the foregoing statements are true and correct.

Respectfully submitted,

THE OHIO OIL COMPANY

By D. E. Morris

SUBJECT: Application for authority to daily complete
The Ohio Oil Company's Edith Butler "B" Well No. 1
in the Hinesbury Gas Pool.

Mr. W. B. Macey
New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Mr. Macey:

The Ohio Oil Company respectfully requests that the Oil Conservation Commission grant this application of The Ohio Oil Company for authority to daily complete its Edith Butler "B" Well No. 1 located in the NE 1/4 of Section 13, Township 22 South, Range 37 East, Las Alamos County, New Mexico, now producing in the Hinesbury Pool.

The Ohio Oil Company desires to daily complete this well in the Hinesbury Pool in such a manner as to produce gas through the annulus between the casing and the tubing, and to continue producing oil from the Hinesbury Pool through the tubing. The Ohio Oil Company intends to install an efficient packer between the two zones and to perform the completion so as to prevent waste in each reservoir. A schematic diagram showing the proposed method for dual completion is attached. A plat is also attached hereto, which indicates the location of the lease and the well and the location of surrounding tracts. A copy of this application, with diagram and plat attached, has been sent by registered mail to each of the operators named on the attached list.

It is contemplated that the NE 1/4 of Section 13 on which the above identified well is completed will be pooled with the SE 1/4 of Section 13 in so far as the Hinesbury Pool is concerned, and N. Olan Oil Company, the operator of the SE 1/4 of Section 13, has advised that it has no objection to the proposed dual completion of The Ohio's well.

Subsequent to the completion of the work, The Ohio Oil Company will present to the Commission data showing the detailed completion program as well as plans for future testing which will be made regularly to determine that waste is not occurring in either reservoir.

Each and all of the foregoing statements are true and correct.

Respectfully submitted,

THE OHIO OIL COMPANY
